

MELTING SET PH600+SPP11d for mastic asphalt and sealing compounds

GENERAL

Stand-alone melting set for bitumen-based sealant, mastic asphalt and thermoplastic. Ideally mounted on truck, trailer etc. Fast melting capacity for smaller or mid-size volumes to support 1-2 sealing machines with melted material.

The melting set is oil-jacketed and has a strong hydraulic agitator to handle hard block-materials or powder.

Large filling lids only approx. 1,3 m from floor. Hydraulic hand controls for the preheater to control agitation direction and speed.

Out-let with manual valve.

Integrated Silent Power Pack (SPP) on the same frame. The engine is silent with noise-proof capsule, which reduces the noise level substantially.

The SPP provides diesel to the burners, hydraulic power to the agitators and electrics for the thermostats etc

This equipment is CE-approved.

TECHNICAL SPEC.

Diameter preheater:	1,25 m
Height preheater:	1,9 m
Weight preheater+SPP:	1.500 kg
Preheater volume:	600L
Heating:	Riello oil burners 230V
Indirect heated:	Heating oil
Temp regulator:	For oil and material (2)
	500cc
Agitator motor:	Manual valve
Outlets on preheater:	L800xW600xH1200
Dim Power Pack:	Hatz 11hp diesel
Engine:	Hatz original
Silent capsule engine:	Included
Start battery:	On engine
Hydraulic pump:	Included
Oil cooler:	230V-12V incl inverter
Electrics:	75L
Hydraulic tank:	75L
Diesel tank:
