

MELTING SET 2XPH600+SPP30D for mastic asphalt and sealing compounds

GENERAL

Stand-alone melting set for bitumen-based sealant, mastic asphalt and thermoplastic. Ideally mounted on truck, trailer etc. Fast melting capacity for larger volumes to support 1-4 sealing machines with melted material.

The melting set is oil-jacketed and has strong hydraulic agitators to handle hard block-materials or powder.

Large filling lids only approx. 1,3 m from floor. Hydraulic hand controls for each preheater so they can be controlled individually in both directions and with variable speed.

Out-let on each preheater with manual valve. Integrated Silent Power Pack (SPP) on the same frame. The engine is silent with noise-proof capsule, which reduces the noise level substantially. The SPP provides diesel to the burners, hydraulic power to the agitators and electrics for the thermostats etc

This equipment is CE-approved.

TECHNICAL SPEC.

Length:	3,3 m
Width:	2,45 m
Height:	2,1 m
Weight, empty:	3.150 kg
Preheater volumes:	2x600L
Heating:	Riello oil burners 230V
Indirect heated:	Heating oil
Temp regulator:	For oil and material (2)
Agitators:	2x500cc
Outlets on preheaters:	Manual valves
Engine:	Hatz 30hp diesel
Silent capsule engine:	Hatz original
Start battery:	Included
Hydraulic pump:	On engine
Oil cooler:	Included
Electrics:	230V-12V incl inverter
Hydraulic tank:	140L
Diesel tank:	140L
